WORK EXPERIENCE

Angular & Front-End Developer

TATA CONSULTANCY SERVICES LIMITED *Dec.2016-Present*

Responsibilities

- Designing pixel perfect web pages by converting UI/UX wireframes into high-quality HTML5 semantic elements, while adhering to W3C Web Standards.
- Implementing Web Interaction Design best practices, with a focus on consistency and usability by using SCSS and CSS3 flexible box layout.
- Designing responsive and mobile-optimized webpages with bootstrap.
- Implementing Types, Generics, Interfaces & Decorators using TypeScript.
- Building Single Page Applications structure with multiple modules using Angular.
- Integrating with RESTful API's.
- Testing web application accessibility, performance, cross-platform & cross-browser compatibility.
- Working extensively in the Agile Development methodology.

PROJECTS

Financial Risk Manager Insight | Fifth Third Bank USA

Dec.2017-Present

Achievements

- Optimized application for maximum speed and scalability, reduced page load time to less than 3 seconds.
- Implemented Dependency Injection, Reactive Forms, Custom Pipes, Directive & Observables using Angular.
- Worked with backend engineers and QA to see projects through, from conception to completion.
- Attending the daily stand-up meeting with the onsite team to discuss project status and progress.

iUse | TCS Digital Interactive

Dec.2016-Dec.2017

Achievements

- Spearheaded to redesign the company's existing UI component library platform, which increased usage by 40% in less than 6 months.
- Created a theme to make applications UI consistent and played a key role in the migration of applications to a common UI framework.
- Participated in the software development life-cycle including functional definition, user flows, interaction models.
- Designed wireframes and visual designs along with UX Designer.

EDUCATION

B.Tech in Information Technology

GITAM University Visakhapatnam

7.6 CGPA

2012-2016

SKILLS

Markdown

CSS

SCSS

JavaScript

ECMAScript 6

TypeScript

Bootstrap

Angular

TOOLS / APPLICATIONS USED

Visual Studio Code

Angular CLI

Augury

npm

GitHub

Insomnia

Google Chrome

Photoshop

Windows

Ubuntu

PERSONAL PROJECTS

Weather

Developed a vanilla JavaScript application that showcases live weather information of the user selected city.

Portfolio

Designed a highly interactive & responsive CV as a website. It comprises Profile Portfolio Microblog & Contact section.

Recipe Book

Built on Angular 8 & Firebase. This application holds a List of Recipes to which users can add their own/edit. Items that are required for recipes can be added to the shopping list.

ACHIEVEMENTS

🏆 On the Spot

Awarded for contributing defect-free code.

🏆 Fantastic Four

Awarded for the best presentation skills.

🏆 Star Team

Awarded as team member for frequent on-time sprint delivery.
